INTERBODY DEVICE

# JULIET<sup>®</sup> OL

STERILE  
IMPLANT

360°  
P-SCREWLESS

## EASY INSERTION

The sloping shape of the device allows an easy insertion in the disc space. JULIET<sup>®</sup>OL proposes an anatomical and a lordotic version.

## LOAD SHARING CONCEPT

The cage's slits are designed to enhance physiological compression load. This concept is intended to distribute axial load through the cage in order to stress the graft, creating a better environment for fusion.

## LARGE GRAFT WINDOW

Large graft window to maximize bone growth.

## COMPACT SET

The OLIF set is only 6 instruments, including a "3 in 1" trial implants. A combo and modular set for PLIF, OLIF, and TLIF cages is also available.
